### **3-5.2 PUD - Planned Unit Development District**

#### **3-5.2.1 Legislative Intent**

It is the intent of this Article is to encourage innovations in residential and nonresidential development so that the growing demands of Warrenton may be met by greater variety in type, design and layout of buildings and housing types and to achieve the purposes set out in Section 15.2-2283 of the Code of Virginia, the Town's Comprehensive Plan, and the following specific purposes of:

##### **3-5.2.1.1 Residential Planned Unit Development (R-PUD)**

1. Providing increased flexibility in the laws governing the development of those areas in Warrenton which are now substantially open land and encouraging such development in directions that will recognize both the changes in design and technology in the building industry and the new demands in the housing market;
2. Ensuring that the uniform regulations appropriate to previously developed residential neighborhoods do not operate to discourage efficient and imaginative development of said substantially open areas consistent with the reasonable enjoyment of neighboring properties;
3. Encouraging the more efficient allocation and maintenance by private initiative of Common Open Space ancillary to new residential areas;
4. Encouraging the more efficient use of those public facilities required in connection with new residential development;
5. Encouraging the creation of human-scaled development with pedestrian-friendly streets, in a traditional neighborhood pattern;
6. Encouraging compatible infill development; and
7. Encouraging the development of affordable housing for local residents.

##### **3-5.2.1.2 Commercial or Industrial Planned Unit Development**

1. Increasing economic opportunities through planned communities that include light industrial and/or commercial business parks with on-site residential development conducive to implementing the Goals and Objectives of the Comprehensive Plan.

2. Developing gateway communities to maintain and convey a sense of the Town's unique character by utilizing mixed-use development compatible with Warrenton's historic environment.
3. Discouraging stereotypical "strip development" and encouraging creative urban design through zoning and subdivision regulations that incorporate flexible design standards, incentives and bonuses. Therefore, the PUD process shall permit a freer placement of buildings within the project area than the conventional subdivision system. In consideration of the unified development concept, the total project parcel shall be the unit of regulation and density shall be calculated on a project-wide basis to permit the clustering of buildings to create open space and preserve natural site features.
4. Maintaining and encouraging efficient land use patterns that integrate residential, commercial, public and employment in planned neighborhoods.
5. Targeting and recruiting new private sector employers in specific commercial and industrial uses to maintain and enhance a balanced tax base through the expansion of employment opportunities that complement and support Main Street.
6. Promoting professional offices and their contributions to a balanced mix of employment opportunities.
7. Balancing multi-modal transportation needs including motor vehicles, bicycles and pedestrians.
8. Reducing vehicular traffic by locating employment and housing within one development.

### **3-5.2.2 Applicability**

The PUD Overlay District is hereby established as an overlay district, as shown on the Town's Official Zoning Map. All regulations of the applicable underlying regular base zoning district shall apply to each parcel within the overlay district, except as modified by the provisions of the overlay district and any proffers or other limitations associated with the approval of a specific overlay district application by the Town. Hereinafter, the term PUD shall refer to residential and business planned unit developments; residential planned unit developments may be referenced as R-PUD and business developments may be further characterized as C-PUD (those PUDs with an underlying commercial zoning designation) or I-PUD (those PUDs with an underlying industrial base zoning district).

### **3-5.2.3 General Planning Considerations**

#### **3-5.2.3.1 Residential Planned Unit Development (R-PUD)**

In considering an application for a Residential Planned Unit Development (R-PUD) with a primary residential component, the Town Council may request information which will aid in determining that:

1. The population density of the R-PUD is consistent with the recommended population density embodied in the Comprehensive Plan and zoning for that area.

2. The incorporation of the development with existing land use and the proposed land uses adjacent to the site has been attempted.
3. The conditions and availability of adjacent streets to efficiently and safely afford movement of the volume of vehicles to be generated by development have been met.
4. Additional community facilities made necessary by the proposed development will be provided in accord with the Town's plans and policies.
5. Additional public services made necessary by the proposed development will be provided or funds reserved for them in accord with the Town's plans and policies.
6. The adequacy of utility services is sufficient for the proposed uses.
7. The amount and relationship of the various types of dwellings proposed by the development are documented.
8. The ratio of dwelling units to be owner occupied and rental is documented.
9. The amount, location, and proposed use of permanent open space achieved by the development are illustrated.
10. The preservation of trees, groves, watercourses, scenic points, historic spots, and other community assets and landmarks will be incorporated.
11. Streets and sidewalks that are safe and convenient for pedestrian activity are provided within the development and connected to existing or proposed networks adjoining the development.

**3-5.2.3.2 Commercial and Industrial Planned Unit Developments (C-PUD/I-PUD)**

In considering an application for a Commercial or Industrial Planned Unit Development (C-PUD or I-PUD) with a primary commercial and/or industrial component, the Town Council may request information which will aid in determining that:

1. The pattern of development within the respective PUD is consistent with the features of the Town's traditional design and development patterns and expands the opportunity for a Live-work environment as identified in the Warrenton Comprehensive Plan.
2. Existing and proposed land uses adjacent to the site have been considered.
3. The PUD is established in an area adjacent to an arterial highway and is served by a road network of minor arterial highways or higher as designated in the Warrenton Comprehensive Plan to efficiently and safely afford movement of the volume of vehicles generated by the development.
4. Additional community facilities made necessary by the proposed development will be provided in accord with the Town's plans and policies.

5. Additional public services made necessary by the proposed development will be provided or funds will be reserved in accordance with the Town's plans and policies.
6. The adequacy of utility services is sufficient for the proposed uses.
7. The amount and relationship of the various types of industrial, commercial, and residential uses proposed by the development are documented.
8. The amount, location, and proposed uses of permanent open space achieved by the development are illustrated.
9. The preservation of trees, groves, watercourses, scenic points, historic spots, and other community assets and landmarks will be incorporated.
10. Development is designed to promote quality lifestyles by encouraging pedestrian movement and reducing automobile movement. Therefore, connections shall be provided from the development to any adjacent existing and/or proposed sidewalks or trails.

**3-5.2.4 Standards and Criteria for Planned Unit Developments**

This Article is formulated according to the principle that the PUD is an innovative departure from the traditional concept of zoning. In providing guidance for a PUD, the following standards and criteria are outlined in order to present respective minimum and maximum regulations.

**3-5.2.4.1 General Criteria**

Uses within the R-PUD shall emphasize residential uses permitted in the underlying base zoning district. Uses within the C-PUD and I-PUD shall emphasize commercial or industrial uses, depending upon the underlying base zoning district and subject to the development standards set forth in the chart below:

<b>PUD Development Standards:</b>			
<b>Category</b>	<b>R-PUD Underlying base residential zoning district</b>	<b>C-PUD Underlying base commercial zoning district</b>	<b>I-PUD Underlying base industrial zoning district</b>
Minimum total land area required.	25A	25A	25A

\* The proposed Land Use Mix and FAR are based on the total land area within each PUD (e.g.: no more than 35% of the allowable uses in the C-PUD may be industrial, and in any event development may be at a density no greater than the maximum permitted coverage expressed as FAR). The Land Use Mix may be modified pursuant to § 3-5.2.4.3.

\*\* Heights are further subject to criteria set forth in § 3-5.2.8, however, height limits for mixed use buildings with residential uses may be increased up to 65 feet with Town Council approval; multifamily dwellings are subject to a Special Use Permit in the C-PUD.

### **3-5.2.4.2 Other Criteria for Residential Planned Unit Developments**

1. The applications and provisions of this Article shall be applied only to an area of not less than twenty-five (25) adjacent and/or contiguous acres within any R district.
2. The Plan shall include maps and narrative text that describe the location of and relationships between all residential and commercial development, public facilities, roadways, open space and recreation areas, and other proposed major facilities.
3. The Plan shall provide for at least two dwelling types.
4. A Mixed Use Residential bonus system is offered to encourage private sector development of affordable dwelling units (ADU), in accord with Article 9, Section 9-3.
5. Not more than fifty (50) percent of the total number of dwelling units shall be provided in multi-family units.
6. No building designed or intended to be used, in part or in whole, for commercial purposes shall be constructed prior to the completion of not less than twenty (20) percent of the dwelling units proposed in the Plan. The Council shall further have the authority to waive or modify the criteria established in this section, if, in the opinion of the Council it shall determine that the grant of such waiver or modification (i) shall advance the legislative intent and general planning considerations underlying the Planned Unit Development District and this Ordinance, (ii) shall be in general conformity with the adopted Comprehensive Plan, and (iii) shall not create an adverse effect on adjacent land uses.
7. Residential and open space uses shall be incorporated into each phase or stage of development in the manner prescribed by the Plan. Applicable recreational facilities shall be completed prior to construction of the next phase.
8. Town Council reserves the right to disapprove any sub area (net) densities that are in excess of that which would otherwise be allowed for the same dwelling type under this Ordinance.
9. The applicant shall designate geographic sections and identify the number and type of dwellings of the entire parcel to be developed as a Planned Unit Development.
10. The unique nature of a proposal for Planned Unit Development may require that the specifications for the width and surfacing of streets and highways, alleys, ways for public utilities, for curbs, gutters, sidewalks, street lights, public parks and playgrounds, school grounds, storm water drainage, water supply and distribution, sanitary sewers and sewage collection and treatment shall be subject to modification from the specifications established in the provisions of the Town of Warrenton Public Facilities Manual. The Council may therefore waive or modify the specifications otherwise applicable for a particular public facility where the Council finds that such specifications are not required in the interest of the residents of the Planned Unit Development and that the modifications of such specifications are not inconsistent with the interests of the Town. Proposed specifications and standards that are contrary to those required under the

prevailing Town regulatory codes shall be termed acceptable upon approval by the Zoning Administrator.

**3-5.2.4.3 Other Criteria for Commercial and Industrial Planned Unit Developments**

1. The applications and provisions of this Article shall be applied only to an area equal to or greater than twenty-five (25) adjacent and/or contiguous acres within an Industrial or Commercial District.
2. A Master Plan shall be required to guide the development. This Plan shall include (i) a general development plan incorporating land bays and land uses as set forth in the Development Standards (§ 3-5.2.4.1) and Use Regulations (§ 3-5.2.6) and (ii) a narrative text that describes phasing, the location of and relationships between all development types, public facilities, roadways, open space and recreation areas, and other proposed major facilities. The Plan shall provide for integrated development of all of the proposed uses and the coordination of infrastructure as a cohesive entity, rather than separate components or independent cells of land use.
3. Residential development within the I-PUD shall be limited to mixed commercial and/or industrial uses with dwellings having ten (10) or more dwelling units that may be designed as mixed-use developments.
4. Phasing. No dwelling units designed or intended to be used solely for residential purposes shall be constructed prior to the completion of not less than thirty five (35) percent of commercial and/or industrial uses, except mixed-use buildings constructed with a residential component shall not be subject to this threshold requirement.
5. The Town Council shall, upon recommendation of the planning commission, have the authority to modify (making the criteria more, less or equally restrictive) or waive, the criteria established §3-5.2 et seq. for Commercial or Industrial Planned Unit Development, if in the opinion of Town Council it shall determine that such modification or waiver:
  - a. Shall advance the legislative intent and general planning considerations underlying the PUD and this Ordinance,
  - b. Shall be in general conformity with the adopted Comprehensive Plan, and
  - c. Shall not create an adverse effect on adjacent land uses.
6. The unique nature of a proposal for the PUD may require that the specifications for the width and surfacing of streets and rights-of-way; use of alleys; easements for public utilities; curbs, gutters, and sidewalks; street lights; public parks and playgrounds; school grounds; storm water drainage; water supply and distribution; sanitary sewers and sewage collection; shall be subject to modification from, or waiver of, the specifications established in the provisions of the Town of

Warrenton Public Facilities Manual. The Council may, upon recommendation of the planning commission, waive or modify the specifications otherwise applicable for a particular public facility as noted above, where the Council finds that such specifications are not required in the interest of the occupants of the PUD and that the modifications of such specifications are not inconsistent with the interests of the Town. Said waivers or modifications may also include waivers of modifications of the requirements of Article 6 – Sign Regulations, such that the applicant may create a comprehensive sign package for a proposed development.

7. Multilevel Parking Facilities shall be allowed as a by-right use within the Commercial and Industrial Planned Unit Development for a maximum of three stories above grade. Multilevel parking facilities should be encouraged as a means of centralizing parking and reducing overall impervious surfaces within the PUD area. The Town recognizes the need for a centralized parking area that may be considered part of the common ownership of the project area. Multilevel Parking Facilities may also exist as an accessory structure to a primary use, either above or below grade. The square footage of the multilevel parking facility shall be excluded from the overall Floor Area Ratio for the project.
